*Secretary.*

HERBERT LEE STETSON, LL. D.,  
*Librarian.*

LEROY HIBBARD WHITE,  
*Steward.*

# Kalamazoo College

The purpose of Kalamazoo College is to enable young men and women to discover their capacities, to train their intellects for strong and vigorous thinking, to gather valuable information from science, literature, history, and other departments for use in later life, to lay a substantial foundation for professional and technical study, to gain a broad and generous culture, and to develop nobility of character and power to achieve moral victories. The curriculum is arranged with reference to accomplishing these results.

Certain subjects are required in all courses, but there is still large opportunity for elective work. The faculty has been selected not alone with reference to knowledge and skill in imparting information, but with due regard to personal qualities and the ability to mould character. The great majority of the students have an earnest purpose to secure a liberal education in order to be of larger service, and this fact gives tone to the institution. The personal contact with members of the faculty aids greatly in the development of the nobler qualities, and the student organizations cultivate a spirit of helpfulness which is exceedingly valuable.

Seventeen states and countries, and seventy-five

high schools, are represented by one or more students, but the College is not lacking in local support, as there are more than thirty graduates of the Kalamazoo high school now in attendance. Through the generosity of the friends of the College, a fund has been provided for assisting to a limited extent students of high character and scholarship who are dependent upon themselves for securing an education.

Every young man or woman who desires to be of the largest possible service in the world should seek to secure a college education. Training is power. The trained man has every advantage over the untrained. The College will call forth latent forces, it will stimulate intense activity, it will develop power to solve the difficult problems of life, it will give culture, it will test and strengthen the character. The leaders in every walk of life are coming more and more from college halls. If you wish to be a leader, get ready for leadership. Test your strength with the bright young men and women in college. You will discover your elements of weakness and of power. Nowhere can time and money be invested to better advantage than in securing a liberal education. It is the path to larger enjoyment, richer culture and nobler service.

## Admission of Candidates for the Bachelor's Degree

Candidates for admission to the various courses of study leading to the Bachelor's degree are admitted to the College either (1) by certificate or (2) by examination. A statement of the kind and amount of work required is given below.

1. Graduates of high schools approved by the Faculty may be admitted to the Freshman class, in the course for which they are prepared, on the presentation of satisfactory certificates\* of work done, and of recommendations for admittance from the high-school authorities. These certificates will be accepted only in so far as they give detailed statements of the extent and grade of preparatory work; and, without special faculty action, only when presented within one year and four months after the time of graduation. A statement of the entrance requirements will be found on pages 11 and 12.

The list of approved schools includes all schools approved by the University of Michigan, all schools affiliated or co-operating with The University of Chicago, and certain other schools.

\* Those who intend to enter the College can obtain the proper blank forms for these certificates from Prof. S. G. Jenks, Secretary of the Faculty.

2. Entrance examinations will be held in Bowen Hall at 9 A. M., Sept. 18, 1906. Satisfactory examinations must be passed in the subjects mentioned below.

## Entrance Requirements

A unit is defined as a course of study pursued through one school year with four or five prepared class exercises a week; one and one-half to two hours of laboratory work in science is equivalent to one prepared class exercise.

All candidates for degrees must present fifteen units.

The ten units of Group I are required of all.

### GROUP I.

English, 3 units.

Mathematics, 3 units, including solid geometry.

Foreign language, 2 units.

Physics, 1 unit.

History, 1 unit.

Five additional units must be selected from Group II.

Candidates for A. B. or Ph. B. degrees must select 4 units of Latin in addition to the foreign language requirement of Group I.

### GROUP II.

Greek, 2 or 3 units.

Latin, 2, 3, or 4 units.

German, 2 or 3 units.

French, 2 or 3 units.

History, 1 or 2 units.

or,

History and Civics, 1 unit, and History 1 unit.

Physiography,  $\frac{1}{2}$  or 1 unit.

Physiology,  $\frac{1}{2}$  or 1 unit.

Botany,  $\frac{1}{2}$  or 1 unit.

Zoology,  $\frac{1}{2}$  or 1 unit.

Chemistry, 1 unit.

Trigonometry,  $\frac{1}{2}$  unit.

Not more than three units of Science from Group II may be offered.

All students are advised to present two units of Latin, and students who expect to enter professional schools (theology, law, medicine) after finishing the college course should certainly do so, as at least this amount of Latin is required for entrance to the better professional schools.

Candidates for the A. B. degree are advised to present two or three units of Greek, and candidates for the B. S. degree a like amount of French or German. If this is not done, the amount of elective work in college is greatly diminished.

## Special Students

In general, students desiring to pursue special courses of study must be prepared to enter one of the regular courses. Under exceptional circumstances, the Faculty may grant permission to take up special work without regular preparation for college entrance, but in such cases the student must be of suitable age, and must present satisfactory

evidence of his ability to do this special work. If such a student afterward desires to become a candidate for a degree, he must comply with the regular college entrance requirements. This must be done before the student begins the work of the Senior year.

## News Items

Mr. Robert Gordon, of the Junior Class, was given first place in the ninth annual contest of the Michigan Oratorical League. Representatives of the following colleges delivered orations: Adrian, Albion, Alma, Hillsdale, Hope, Kalamazoo, Michigan Agricultural College, Michigan Normal College, and Olivet. Mr. Gordon represented the State in the inter-state oratorical contest held at Topeka, Kansas.

Mr. John Henry Carstens was given second place in the intercollegiate prohibition oratorical contest held at Albion.

During the past few months President Slocum has delivered a large number of public addresses on various subjects in Kalamazoo and in other parts of the State.

During the winter a lecture course open to students and friends of the College has been conducted. The speakers and subjects were as follows: Professor Praeger, "Bird Migration." Professor Worden, "Schiller, the Man and the Poet." Pro-

fessor G. A. Williams, "Athens, Old and New." Professor MacEwan, "Burns." Professor Stetson, "Feeling Good and Feeling Bad."

Members of the Faculty have spoken at various times during the winter before the Ladies' Library Club, the Twentieth Century Club, and the Civic Improvement League of Kalamazoo. Professor MacEwan has spoken on Hamlet, English History in King John, and Shakespeare's Heroines. Miss Johnson read a paper on Richard III. Professor G. A. Williams gave a travel talk on Greece. Professor Stetson presented papers on sociological subjects.

A lecture course conducted by the pastor of the Baptist church at Galesburg included the following numbers from the College: Professor Stetson, "Feeling Good and Feeling Bad." "Professor Worden, "The Paris Exposition of 1900." Professor Praeger, "A Year with the Birds."

Before the Women's Union of the First Baptist church Professor G. A. Williams gave a travel talk on Greece, and Professor Praeger a talk on Ireland.

Professor Praeger addressed the Unity Club of the People's Church on "Minute Enemies of Plants."

Professor Stetson gave the address at the rededication of the Baptist church at Dowagiac.

The Faculty was represented at the Michigan Schoolmaster's Club by Professors C. B. Williams, Praeger, and Worden.

Professor Williams gave a report as chairman of a committee, on the organization of a Michigan Mathematical Society, and was elected chairman of the Mathematical Conference of the Schoolmaster's Club for the ensuing year.

Professor Worden read a paper on "Some Indispensable Factors for Americans Teaching Foreign Language and Literature."

At the County Teachers' Institute Professor Praeger delivered two addresses: "Our Common Birds," and "Nature Study."

Professor Worden lectured under the auspices of the Woman's Auxilliary of the Kalamazoo Hospital Association on "Oberammergau and Its 1900 Passion Play."

Lemuel Call Barnes, '75, of Worcester, Mass., will deliver the Baccalaureate Sermon.
